## AMERICANS LOSE IN MEXICAN SUIT

EL PASO, Tex., March 3.—By a decision of the Supreme Court of Mexico the ancient claims of Jesus Aguirre Navarez to the famous Dolores mine in Chihuahua is sustained and the claim of Escobar and Rose declared void.

This will mean the loss of hundreds of thousands of dollars to the Americans, as the mine has been sold several times on the Escobar and Ross title, the last time to J. P. Hutchinson for the Cinco Senores Company, in which F. Augustus Heinze is a heavy stockholder. Hutchinson is Mexico manager for Charles Schwab, but Schwab is said not to be interested in the Dolores mine.

## WILL BECOME BIG GOLD CAMP

Despite his success in other camps, Frank Boudine continues to consider Goldfield his home. He dropped off the train this week after an extended visit to Goldbanks, where he owns sixteen claims, on which considerable work has been done.

"Goldbanks," he said, "was discovered less than a year ago by several prospectors from Manhattan, who placed location notices on croppings and passed on, without doing their work, but the reports which they brought out caused other prospectors to go in and go in to stay.

"In a direct line Goldbanks is 30 miles south of Winnemucca, situated on the rim of Pleasant Valley. The formation of the district is quartzite and porphyry. A remarkable feature of the district is that in some of the ledges the values are practically all in gold, while in others the silver predominates, and yet the matrix of all the ledges is similar, as are also the walls.

"Here is a pretty fair sample of what I find in my group," said Mr. Boudine, as he pulled a chunk of quartz from his pocket. The piece was apparently one-fourth galena, but a closer inspection revealed it to be stephanite and the apparent copper stain to be in reality silver bromide.

Mr. Boudine says that he has eighteen inches of stuff of that character, although he does not claim that it is all rich.

"Fifteen leasers and owners are now working in the district and some of the gold bearing ore will shortly be shipped out. It is only about fifteen miles to the terminus of the Adelaide-Golconda railroad, which connects with the main line, and the ore can be shipped to the smelters at little cost, there being an ore treatment plant at Golconda."—Reno Journal.

## TURNING OUT THE BEST WORK

The bindery of the Bonanza is turning out the best work in the city, and it is giving such great satisfaction that anyone who has his work done there once, never goes anywhere else. The plant is the finest and most complete, not only in the State, but this side of San Francisco. We can turn out all kinds of work that is demanded in the offices of lawyers, brokers, promoters, mining companies, or for any other kind of business, and we guarantee satisfaction in every respect. One trial will be sufficient to establish the truth of this statement. It pays to go where only the best kind of work is done, and it pays to patronize home industry.
